Waveland, Bay share in \$ gain

issued in Mississippi's three coastal counties during August, 1977, totaled some \$8.7 million, a gain of almost 75

percent over the same month last year. The Mississippi Research and Development Center's Gulf Coast branch office in Long Beach reported 512 permits issued in the three counties during August, a ten percent jump in the number issued in August, 1976.

Permits issued in the three counties in August totaled \$8,696,119 compared to \$4,980,892 in the same month of 1976,

the MRDC said. Figures from the whole of Hancock County were not immediately available, the center reported, but a (Continued on page 2A)

from the Port of Gulfport to the company's DeLisle plant, says the equivalent of 100 tons of black ore will be dumped into waters around the port

every two weeks. Cyril Laan of Ocean Springs and Metairie, La., will add his objections concerning environmental dangers of DuPont's rail operations to an Environmental Impact Statement (EIS) Commerce Commission (ICC).

A draft of the EIS was released by the ICC Aug. 9 with a request from the commission that interested citizens and groups return comments on the report to the ICC's Section on Energy and Environment yesterday.

But the commission has now added an additional two more weeks to the period for citizen comment on 13.5 Southern Mississippi Transportation Company, a wholly-owned subsidiary of E. I. DuPont deNemours and Co.

The extension was requested by Save The Bay, Inc., Gulf Coast citizen environmental group which has opposed construction of DuPont's \$150 million titanium dioxide plant on Bay St. Louis for the past 2.5 years.

Frank Lee of Leetown Community, was elected president of the Hancock County farm Bureau on Saturday at that group's annual general meeting at McLeod Park.

Arthur Necaise, chairman of the nominating committee, called for a vote endorsing his group's selectees. following presentations by the meeting's principal speakers, State Senator Martin Smith, and State

Representative J.P. Compretta. Others elected for the 1977-'78 activities year were, Louis J. Breaux, vice president; Elouise Lee, secretarytreasurer; A.H. Harris, Paul Hariel, Donald Famularo, B.L. Dossett, Louis D. Lee, Felix Famularo, James Travirca, Tommy Shaw, Omer Haas,

directors; Nell Koenenn, women's chairman.

Rester and Harris, served with Necaise on the nominating committee. Senator Smith told the group of the efforts exerted by the local emergency committee in having the county declared a disaster area.

The recommendation has been forwarded to the state level committee and subject to their approval will be forwarded to the governor ultimately to Washington.

Should all the efforts prove successful low interest loans will be made available to the economically distressed soybean, dairy, produce, and beef, farmer, to aid in recovery efforts, Smith said.

Welcome to festival

by L. J. Breaux, festival chairman

To all visitors to Hancock County, and home folks alike we welcome you to the White Cypress-Necaise Crossing Third Annual Gumbo Festival in this, the Gumbo Capital of the Universe.

The festival this weekend is the result of thousands of man-hours of planning over the past year, plans that have been inspired by the aged, the sick, and the needy, and the knowledge that it is only through the Grace of God that we are on the planning side.

These plans too were strengthened by the ambitious young whose destiny we decide, and the forces who seek to destroy both man's work and the truth.

We have planned like our work may end tomorrow or perhaps we might reach the age of 90.

We know you will enjoy and be pleased with the things we are trying to accomplish.

We will continue to work so that when our years of service have become just a memory we will be able to say that when our county and our church was looking for something new, different, unique, and enjoyable to the entire family, men and women of courage answered the call, studied, worked, and prayed they could serve their fellow man to leave a legacy worthy of their generation.

We welcome you to Hancock County's one and only Gumbo Festival.

We know you and your family will enjoy every minute of the time spent here, and on behalf of the hundreds of volunteers in our community who worked so hard to bring it all to you, please let this welcome also serve as a cordial invitation for your return next year.

Burglaries end, sheriff arrests 8 juveniles

The Hancock County Sheriff's Office has apprehended eight juveniles since Friday, all charged with comparatively serious offenses.

Five were involved in the break in of a pharmacy and doctor's automobile at Diamondhead, two were caught in the

act of burglary at Cuevas Junction, and one is charged with five counts of burglary and one of grand larceny following a series of breaking, entering, and removal of property incidents in Shoreline Park.

The Diamondhead affair occured at (Continued on Page 12A)

Jourdan River, Catahoula rate with oil producers

United Way review (2)

by JAKE JACOB A Norwegian owned oil company,

Saga Petroleum, has acquired oil and gas rights to several thousand acres of state-owned tide lands in Hancock

In this accumulation more than \$1.4 million has been paid to the state's

Mineral Lease Commission in bid funds, according to the Jackson records

All together the company has garnered more than 44,500 acres of lease areas under South Mississippi, in many cases outstripping the bids of its

competitions by more than nine times.

Petroleum, and Spooner Petroleum. and Ensearch Exploration, Inc. on eight tracts in Hancock County, being itself outbid by Ensearch on the ninth. The lands were located along the

Jourdan and Catahoula River areas.

The tracts leased by Saga ranged

Drilling action hiked Saga last month outbid Phillips its bids ranged from \$38,854 for the smallest to \$240,523 for a 576 acre

On eight tracts secured by Saga, no other bidding company came close to the sum offered.

The next high bid to Saga's \$240 plus thousand was received from Spooner Petroleum of Jackson, in the amount of

\$87,560. On another tract, the Saga bid was \$293,203, versus \$32,217 for Phillips, and again, Saga at \$194,154 versus Phillips, \$18,702. In both cases, Phillips

was second highest bidder. Bids are for three years and provide the state one -fourth royalty, free and (Continued on page 3A)

Chamber urges separate airport control board

BY EDGAR PEREZ Designation of Stennis Airport as a

of a separate governing body to control the facility were among topics discussed at this week's directory meeting of the Hancock County

Chamber of Commerce.

Paul Montjoy, project manager of Diamondhead, said location of Stendig Airport is ideal as an alternate landing (Continued or page 20)

Moore trial venue moved to Gulfport

by JAKE JACOB in October 1975, and subsequently The retrial of Christopher Alvin sentenced to die in December of that Moore, 24, charged with the rapeyear, is to be held in the Harrison murder of a Pascagoula school teacher, County Circuit Court. charges of which he was first convicted.

A homemaker who finds she can't dizing his job and future, a couple who see their marriage disintegrating, a

experiences, a family with a member

Chamber...

site when for or weather conditions or other emergency dictates temporary closure of New Orleans International.

"This would generate some strong transportation business in Hancock County and would be a big boost for restaurants, hotels and motels in this area," Montjoy feels.

"Stennis (Airport) is not ready yet," Montjoy said in urging that work on improvement of the facility begin immediately.

"We have been working on the (I-10) hospitality center for four years and it's not a reality yet," Montjoy said. "We need to be working on the airport development now."

Stennis would need additional runway length, radio and tower landing facilities, fire-fighting equipment facilities and other improvements before it could serve as a reliever to New Orleans, he pointed out.

Max Berns, chamber executive director, Chamber of Commerce, said Stennis now could accomodate landing of a Concorde jet and "take-off with a reduced fuel load."

"The future success of this county rides with the success of the airport.' said L.J. Breaux of Necaise Crossing.

"The airport is the stepchild of the Hancock County Port and Harbor Commission," Breaux said in urging the facility be placed under its own governing body.

Officials are willing to listen to the businessmen these days," said P.D. (Sonny) Bailey, chamber president and owner of Bailey Electric Co. in Bay St. Louis: "They need our help."

Bailey said it was the businessmen in the area who made the Gulfport-Biloxi Regional Airport a reality-"not politics."

Also at this week's meeting in the chamber office on Hwy. 90, Bailey urged development of tours of the county's industrial and manufacturing facilities.

The chamber president said such tours should include the Port Bienville Industrial Park and the NASA-NSTL in Hancock County.

Berns reported approval of a \$1,500 matching-fund grant from Mississippi Agricultural and Industrial Board for Gulf Coast promotion billboard facing east-bound lanes of I-10 on the Louisiana border.

The executive director said chambers of commerce from all coastal communities and counties are cooperating in securing three more billboards, one for the west-bound side of I-10 here and two for I-10 at the Alabama border.

Montjoy also urged the board members to look into ways of developing Hancock County as a distribution center. "More than just the \$4 to \$6-an-hour jobs, we need to look at bringing in the sales and executive types - the \$20,000-a-year and up people," he continued.

Warehousing, Montjoy said, "...is the cleanest business there is - it doesn't make any smoke."

In a report from the Hancock County Livestock and Fair Association, Breaux told the board the Farmers Market at the fairgrounds continues to be held on

(Continued from Page 1)

Wednesdays and Saturdays.

He said the Wednesday market may be postponed temporarily during the winter months if farmers decide business is not brisk enough to warrant. a trip to market in the middle of the

Robert Kane, in a study on possible future locations of the chamber's offices, said arrangements for a lease with a Hwy. 90 property owner who would build to suit the chamber's needs is the best alternative to staying in the present location.

Realtor Jay Triche said any "positive" move by the chamber dictates "location on Hwy. 90."

The chamber also heard a report from John Larroux on steps being taken to help make transfer arrangements and welcome U.S. Navy personnel and civilians who will be moving here in the next several months to the new oceanographic facility.

Norton Haas asked for the board members' cooperation during the remaining weeks of the United Way fund drive. He noted the drive is up to now far short of its \$40,000 goal.

But Haas praised the efforts of this year's drive co-chairmen, Ellis Cuevas. publisher, Sea Coast Echo; and Mary Perkins, publisher of the Coast Buyers'

Berns said plans thus far for the hospitality station near the intersection of Hwys. I-10 and Miss. 607 call for access only from Hwy. 607.

"Federal officials have asked that we go along with this plan, and if it shouldn't work out, they will consider further the possibility of access from I-10," he reported.

In other action, the board voted to hold its annual banquet this fall at the Bay-Waveland Yacht Club once again. The board is seeking Gulf Oil President James Lee, formerly of Leetown, as featured speaker at the banquet.

Gumbo bowl... (Continued from page 1)

Saturday include: Del Reeves and Nancy Mercantel for 1, 3, 5 and 7 p.m. shows. The Jack Green-Jeannie Sealy Show will open Sunday at 1 p.m. The duo will perform again at 5 p.m. This is their first performance since their recent accident.

Breaux said the Dottie West Show will be held at 3 and 5 p.m. Sunday.

The festival opens Friday at 5 p.m. with a fish-fry, square dancing and a fiddling and banjo picking contest. There is a general admission charge of \$3. Children under 12 will be admitted

Saturday's activities get underway at 9 a.m. with a boy's baby contest and will conclude with a Fais DO-Do Dance at 9 p.m.

Sunday's activities begin at 10 a.m. with a girl's baby contest and conclude with the Dottie West Show at 7 p.m.

Both Saturday (Cajun Day) and Sunday's admission for adults is \$5 per person. Children under mitted free.

Breaux estimates some 200 persons are involved in the planning and execution of the festival.

Permits...

breakdown was issued on the cities of Bay St. Louis, Waveland and Pass

In Bay St. Louis during August, four residential permits valued at \$130,000 were issued, and one commercial permit valued at \$78,000, as well as 12 for alterations, additions and repairs valued at \$86,690

The total of 17 permits in Bay St. Louis is valued at \$294,690, MRDC said. Waveland issued a total of 16 permits for work valued at \$141,725.

A breakdown of the Waveland figures shows three residential permits issued, value: \$73,000; one commercial permit.

clear of the company's expenses, if oil or gas is struck and put into production. The Hancock County Farm Bureau earlier this month went on record with a protest concerning the state's oil and gas right leasing policy until a firm survey of the affected lands could be

Earlier too, the Hancock County School System, constantly at loggerheads with the county csupervisors concerning its need for construction and other building capital fell heir to \$173,636 for mineral rights on 16th Section Lands, also leased by Saga.

The schools also stand to collect 25. percent of production royalties paid to the sate.

Spooner Petroleum Co. reportedly

(Continued from Page 1)

purchased mineral rights to 1,975 acres of land owned by the Crump estate at a rumored \$250,000 plus 25 percent of royalties until costs are met and 40 percent from that time forward.

Five big rigs are reported working within the county with actual drillings completed varying between 12 and 20 wells, all of which are reported producing or capped but capable of production.

A new scrubbing plant has been built and is in operation adjacent to the Texas Flat (Waveland) Field, with a capacity of 25 million cubic feet per day, a figure expected to increase to 75 million cubic feet per day by 1978, through plant expansion and improvement. This plant extracts excess

sulphur from, and drys the gas before it is fed into the interstate pipeline. Unconfirmed reports state that Phillips is the largest producer in the

county followed, though not necessarily in sequence, by Saga, Texas Pacific, Union Oil and Spooner.

New eyes for old, is theme

Old and discarded eye glasses are being collected by the St. Cecelia Guild of Trinity Episcopal Church in Pass Christian. Lenses from these glasses are to be reworked and fitted to the needs of individual under-privileged persons who cannot afford glasses. Spectacles may be brought to the church office opened mornings from 9 a.m. until noon.

Persons living in the Bay-Waveland area wishing to donate discarded eye glasses may leave them at the home of Mrs. Joe Pilet. A small table located on the front porch of 520 Highland Drive has a receptacle for placement of these glasses.

Save the Bay...

Interested parties now have until Oct. 12 to submit statements to the ICC which will then decide if a public hearing on the railroad is necessary.

The plant railroad is slated to connect to a main line of the Illinois Central-Gulf Railroad 1.5 miles north of the Gulfport corporate limits and extend to the DuPont plant at Grassy Point on Bay St. Louis.

Save The Bay attorney Robert Homes said last week he has not yet completed the environmental group's reaction statement to the EIS, but added the report will emphasize "deficiencies in the statement as well as a land use question."

Homes said deficiencies in the statement include the exclusion of .i.the effects of effluents from the plant which are also the result of the

According to the government's statement, DuPont will use the railroad to "haul inbound raw materials, consisting primarily of ilmenite or titanium-bearing ore, chlorine, coke, coal, fuel oil and caustics....'

Laan said he is questioning losses of ilmenite ore at the Port of Gulfport which may show up on Gulfport beaches.

"The main potential aquatic effect from titanium compounds will occur at the Port of Gulfport where titanium ore would be unloaded from an ocean-going vessel by crane, then hauled on covered but not enclosed conveyor belt to storage silos prior to loading on covered hopper cars," Laan said.

'Losses of ilmenite ore ar anticipated, but are expected to be less than one percent," he continued. "Such losses could result in the addition of

(Continued from Page 1)

black to the white sandy beaches which are adjacent to the Gulfport port facility.

"The exact percentage of ilmenite ore loss is not known," Laan said, adding, "however, if a one percent loss does result, approximately 2,550 tons of black ore annually would be dumped along the coastal waters and beaches of Gulfport."

"This would be the equivalent of dumping a 100-ton rail car of ore in this vicinity every two weeks," Laan emphasized.

The environmentalists also feel that while construction may / not permanently damage wildlife species present in the area, "...development along the railway, should it eventually be realized, will have a widespread adverse effect on the native flora and fauna in the subject area."

"Construction of the subject (railroad) line will have an indirect adverse effect on wildlife due to the fact that it will facilitate human access to remote sections of Harrison County," Save The Bay report continued.

"On the ground, human activitiesespecially in the vicinity of the oxbows west of the Wolf River where limited populations of wood ducks and American alligators exist--human activities will be detrimental."

"Over-hunting and poaching of these two species may occur as a result," the report goes on to say.

Homes also said the group will raise a point about a 200-acre right-of-way along the railway which might eventually be utilized by other industries also served by the DuPont railway.

DuPont's DeLisle plant is currently under construction, and contracts have been awarded for building the railroad.

Moore...

(Continued from Page 1)

An order signed by Circuit Judge J. Ruble Griffin of Bay St. Louis, on Wednesday moved the hearing to the First Judicial District of Harrison County, Gulfport.

The court action came as the result of a petition for change of venue filed by attorneys for the defendant Sept. 16, in the Circuit Court of Hancock County.

Judge Griffin heard the petition in Gulfport on Wednesday, and subsequent to an hour long conference with attorneys in chambers, issued his or-

The petition stated that as the defendent is charged with capital murder and is presently awaiting trial on said charge before said court at its next regular term;

The peitition read, 'by reason of prejudgement of this case, or grudge or ill will to the defendant in the public mind, defendant cannot have a fair and impartial trial in Hancock County nor can the defendant have a fair and impartial trial in any county which adjoins, neighbors, surrounds, is in close proximity to, or is served by the same news media or services as is Hancock County or Jackson County."(This, according to many observers, meant the defense sought to have the trial moved north of the six coast counties.)

The petition continued, "A fair and impartial trial cannot be had in the above referred to counties because of public hostility against the defendant, public outrage over the offense of which the defendant is accused, and prejudicial pretrial publicity and news reporting that have maligned the defendant and disclosed and inferred the existence of inadmissible evidence relating to the crime with which defendant is charged;

...the defendant petitions this Court to grant a change of venue of this cause to a convenient county where he may be

granted a fair and impartial trial." In July of this year, a previous motion to have the re-trial moved back to Jackson County was denied by Circuit Court Judge Floyd L. Logan.

No date was set for trial following the motion, an act resulting in the case being postponed until the October term, due to start here on Oct. 10.

Judge Griffin's order, while denying the full cause of the petition, granted the venue change, but to Harrison County, the county mid-way between Jackson, site of the alleged offense, and Hancock, site of the first trial.

Judge Griffin, who presided at the original trial and pronounced the death penalty, will also sit over the retrial.

Judge Griffin gave as his reasons for changing venue to the first Judicial District of Harrison County the comodious facility now available to the court (the new county courthouse) and the large population in the county from which to select a jury.

Finally, the order states, neither counsel objected to such a relocation. Date of the re-trial is still to be set, an act to be determined by the availability of such witnesses as may be required, and the availability of the court.

Moore, a black, was charged with and subsequently convicted of the rapemurder of Mrs. Irene Hoffman, a 29 year-old, white, school teacher, in her home across the street from the

elementary school where she taught. Her body, according to witnesses, was discovered after she failed to return to school following a break period.

The case, which attracted the attention of a large group of civil rights activists, including the then president of the Southern Christian Leadership Conference, Rev. Ralph Abernathy, was moved to Hancock County on a change of venue motion.

social security office.

Some people think they must retire completely to get monthly social security checks. They don't realize some or all of their benefits may be payable even though a self-employed person count they continue to work, according to William D. Gladden, social security district

manager in Gulfport. In 1977, beneficiaries under other sources. Rental income 72 can earn up to \$3,000 and be counts only if you're a real eligible for all benefits during estate dealer or you the year. Above \$3,000, payments are reduced only \$1 for ever \$2 earned. (If you're over 72, forget the limit and

earn as much as you want!) To see how this works, let's benefits are payable for any take the case of John H. who month you don't perform retired last year and gets \$310 a month (\$3,720 a year). In January 1977, John went back than 45 hours in a month in to work and earned \$700 a your business, your services month (\$8,400 for the year). Since he will lose \$1 in benefits for each \$2 earned over the \$3,000, John can still collect \$1,020 from social security in

There's another rule that helps people who work and earn most of their money in a shorter period of time: For any month they neither earn over \$250 wages nor perform "substantial services" in selfemployment, a full benefit check can be paid no matter how much is earned the rest of the year.

Assume John earned his \$8,400 at a rate of \$1,400 a month for 6 months and did not work the rest of 1977. In this situation, social security would pay him a total of \$1.860 in benefits for those 6 nonwork months. This is \$840 more than if he had worked all

Social security will, of course, look at both your total yearly earnings as well as after they end. For example, your monthly earnings if you if you earned \$2,500 before you

earn over \$3,000 in 1977. Whichever method gives you the most benefits will be used. Only gross wages as an employee and net earnings as

against benefits. You do not have to count income from savings, dividends, pensions, investments, sale of assets, or further details.

materially participate in the operation or management of a farm you rent out. If you're self-employed and earn over \$3,000 for the year,

retired July 1 and another \$2,500 the last 6 months, your total 1977 earnings for social security purposes would be

If you have questions about how much you can earn and still get benefits, the people at any social security office will be glad to answer them. They have free leaflets that provide

While fresh in memory

We have taken the opportunity to talk to several folks, some involved with the Hancock County Livestock and Fair Association and other residents not involved directly since our last publication.

We feel today as we did last week in regards to the importance of suggesting the Fair Association re-evaluate the type of entertainment to provide next year.

The folks we have talked to all feel the type of Carnival with rides, etc. should be the last type of entertainment considered. The objection is that most of the money spent leaves our county, among other complaints with which the majority of you are familiar.

We would like to make several suggestions for consideration which everyone we talked to thought were good ideas. The Fair Association may want to consider all or part of these.

1. Have an annual Fair that will last from one to two weeks...

2. Have several different types of entertainment and events each day...

3. Incorporate old Church Fair type booths, letting different county organizations run these booths for a cut of the take. All of the money would remain here in Hancock County... 4. Have a battle of bands contest, there are many fine school

bands in Hancock County and surrounding area...

5. Have a Livestock Show with the stands full of spectators to let the livestock pass in review before the judges and fans...

6. A fiddling contest...

7. A square dancing contest... 8. A field day for adults...

9. A field day for every student in Hancock County...

10. A rodeo similar to the one several weeks ago...

11. An AQHA horse show.

These events and many more could be done that would benefit the whole county.

Even if the Fairgrounds are located outside the cities of Bay St. Louis and Waveland they could help the Sheriff's office provide security on a 24 hour basis whenever the Fair is in

The whole group we talked to felt the biggest selling point for the Fair would be to have things of interest to every resident of the county.

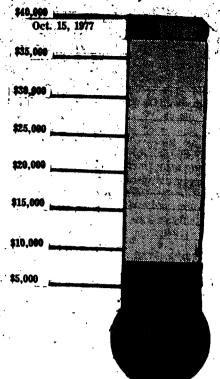

The displays which they have had at the past Fairs are wonderful and should be continued.

The time we feel is NOW to start making plans for next year's celebration.

The lessons learned from this year's Fair can be of great value for the future of the Hancock County Livestock and Fair Association.

Hancock United Way 1978

Goal \$40,000

impression that robberles happen only to banks and rapes only to women who pick up hitchhikers. However, that is not the case. Many victims of these crimes are people out for an evening stroll or walking to or from a business appointment at night. The familiar refrain that "it isn't even safe to walk the streets any more has, unfortunately proven to be true on many occasions.

bers" is particularly true on the street

at night! - Avoid walking on dimly lit streets or little traveled shortcuts.

Mail a check today

Elsewhere in this issue you will find a proclamation signed by both Hancock County officials and the mayors of Bay St. Louis and Waveland. The document announces Oct. 3 through 9 as UNITED WAY WEEK and calls upon citizens of our community to support this agency.

Guest Editorial

Specifically, the purpose of this drive for funds is to improve community life through contributions that will assist thirteen separate agencies. Your support can make a significant difference in the life of this community. A total goal of \$40,000as a fair-share from Hancock County is realistic for the majority of our people have prospered and have been blessed with both necessities and luxuries adding security to our life style.

According to a 1976 Census report of Gulf Regional Planning Commission, the population of Waveland was given as 4,614 and that of Bay St. Louis as 6,854. Hancock County's population is roughly 18,000. Volunteer workers have pledged themselves to make every effort to give each of these persons an * robiti time. 5.

opportunity to hear the United Way story and to make their contributions to the cause.

We laud and applaud our volunteer workers who spend countless hours and go to considerable personal expense in assisting with this worthy cause. We also laud and applaud our city and county officials who have considered the advantages of lump-sum contributions - the united Way - to make donations. United Way saves time, assures a more general distribution of funds, and is the modern and progressive method by which we can do our "fair share."

Each of us can help during UNITED WAY WEEK. Why wait for a volunteer to call on us? Why not send in your Make your check contribution? payable to Hancock County United Way Fund. Mail it to United Way Fund, P.O. Box 142, Bay St. Louis, MS 39520. Let's count our blessings - reach our goal and go about the business of "the pursuit of happiness."

Crime resistance alert

WALKING AWAY FROM CRIME Clarence Kelley Director

Some people are under the mistaken

Certainly no one wants to yield to criminals by staying behind locked doors. There is a choice and that is to exercise care.

Here are a few crime resistance techniques which should be practiced to reduce the possibility of becoming a crime victim when walking at night: - Avoid walking alone at night. The maxim that "there is safety in num-

By CONGRESSMAN TRENT LOTT

Tax-writing committees of the House and Senate have set their sights on protecting the nation's social security system from an impending financial crisis. There is little doubt that the benefits will continue, but the system faces a substantial overhaul.

Yes, the social security system has, since 1975, been paying out more in benefits than it has taken in through employee and employer payroll deductions. No, Congress has no intention of abandoning the ship.

which support it are decreased.

unemployment has caused receipts to fall below estimates. Disbursements have gone up because more people retire early and, under existing law, inflation automatically boosts the payments.

shoulder the task of protecting the system, and the pressing question to be answered is whether the solutions will be short or long range. Frankly, I favor the long-range approach because if we adopt a frantic, stop-gap law we'll live to regret it.

Already, a House subcommittee has considered the possibilities and returned its findings to the full Ways and Means Committee. One proposal is to remove the financial stress on the system by increasing payroll deductions on both employers and employees. Another is to raise the ceiling on the amount of money a social security recipient can earn without losing benefits, from the current \$3,000 per year to \$4,500 in 1978 and \$6,000 thereafter.

Still another proposal is to raise the retirement age and another is to shift revenue from other sources. One proposal that has not received a great

These are only proposals at this time. but they can be taken as a clear indication that Congress is concerned about protecting a system that millions of Americans depend on.

if accosted. - Women should not carry purses openly when walking at night.

BY GOV. CLIFF FINCH

JACKSON - I recently had the opportunity to conduct public hearings thoughout our state in an effort to find out how the people of Mississippi feel about our highways and our road building programs.

These hearings were very valuable and inspirational to me because it showed that our people in Mississippi are aware of the importance of good roads to our state, as we try to develop more jobs and better paying jobs for everyone.

We in government often hear from engineers, highway administrators. road builders, financial experts and other officials on our highways and roads in the state, and we need their

But I was especially impressed during the hearings with some ideas and suggestions that came from the real experts, people like you who depend on highways to get back and forth to their jobs, schools, churches, and recreational areas.

I especially recall the comments of two gentlemen. One was a farmer who often travelled a state highway that has not been improved in many years. This gentleman said he could put up with the bumps and holes in the road himself, but that he lived in mortal fear because several school buses had to travel each day on a road he considered hazardous.

The other gentleman was an elderly retired person. He had the attitude that I believe most Mississippians have. He told us that he would not live long enough to see any new roads built, but he was willing to pay his part in order that his grandchildren and their ancestors would have a better way of life

because of improved roads in our state. These public hearings were very valuable to me because they gave me an insight into what the people want, and not necessarily what we in Jackson want. The people's ideas will be very helpful to me as I prepare to make recommendations to the Legislature for a road program.

I think it is important that a governor remain in close contact with the people on major decisions facing our state. If you have an opinion on our road program or any other matter, I would like to know your views.

You can write me at P. O. Box 139. Jackson, Ms. 39205, or call the Governor's Action Line without cost to you. The number in Jackson is 354-7773. If you live outside the Jackson telephone exchange area, dial 1-800-682-

Health Tip

HOW TO CUT YOUR DOCTOR BILLS

The cost of treating a serious illness or accidental injury most often is unanticipated and always is unwanted. Often it is not included in the family financial plan and often it presents an extra expense on top of an already tight budget.

Like all other living expenses, the price of medical treatment has risen in recent years. But, says the American Medical Association, there are still a number of ways in which you can stretch your medical dollar and at the same time get better protection for yourself and your family.

Have a family doctor. He will keep a permanent record of your medical history, which may save duplicating many expensive and time-consuming tests. He will know your background and be better able to tell promptly if any thing is wrong.

Don't wait too long. Many people try to save money on medical bills by not seeing the doctor until they are seriously ill. This not only defeats the purpose of preventive medicine, the only sound way to preserve your health, but it also is more expensive in the long

Have regular checkups. Early detection obviously offers a better chance to control and cure disease. Go to the doctor's office. House

calls are not only more expensive, they also are less efficient. Without his office equipment and his trained staff, your physician cannot perform a complete examination. The doctor can give you better care, sooner and at less expense in his office

Use the telephone. This not only saves money but also often makes good medical sense. A family doctor who has examined you regularly can sometimes advise you over the phone about minor health problems. For anything that seems serious, he will ask you to come to his office to be examined.

- Follow your doctor's orders. If you refuse to follow the advice you solicit and pay for, you are throwing your money away.

- Buy health insurance. Health insurance is a bargain considering the shattering effects on the family finances that prolonged illness can have. Buy as much as you can afford but especially protect yourself against the catastrophic expenses of serious

- Take allowable tax deductions. Doctor bills, hospital bills and drug costs not covered by insurance, and beyond a certain percentage of your income, may be claimed as deductions for tax purposes.

Is Hancock on the edge of the boom?

Opinion/Jake Jacob

The Oompah-Swingers Band did their thing Saturday and kept the Waveland Legion Hall packed all that evening.

The event was an Oktoberfest.

The beaches of Waveland were packed Saturday, with family after family, sitting, standing, playing football, digging the sand, or just walking the seawall.

The event was the Waveland Civic Association's Gigantic Fireworks display.

All week hundreds of people came and went to the Hancock County Fairgrounds, some with their families. many with the avails of their labors, but all with pride in their heart that this was their life, their achievement.

The event was the Hancock County

Seventh Annual Fair and Livestock Show.

The previous weekend the fairgrounds was in full operation hosting packed bleachers and arena activities.

The event was the American Quarter Horse Association rodeo.

That weekend also the beaches and seawall had their quota of spectators watching sail boats pit their skills against wind and weather.

The event was the Monk Regatta. The weekend before that the showdeo was in town.

And before, during, and after all these events, there were a host of others known best to their participants.

And now, this weekend, the Third

Annual Gumbo Festival gets underway with gumbo, fiddles, gumbo, banjos, gumbo, country music, gumbo, baby contests, gumbo, pageant queens, gumbo, pie making, gumbo, quilting, gumbo, square dancing, gumbo, fish fry, gumbo, field events, gumbo, and 20,000 people.

Hancock County is staying busy and its people are having every opportunity to lead a full and interesting life.

Maybe this is the atmosphere required to permit the long awaited "surge of progress."

For a long time, the length of most of the county population's lives, the word has been that one day Hancock would lead the parade.

The indicators are that it could very well be time to start warming up the

Letters to the Editor

Ocktoberfest

Sea Coast Echo

Dear Sir: I've always tended to have ups and downs about our local area-but one event I'm always up for are local food

Last weekend my family and I at-tended the Ocktoberfest sponsored by the Waveland Legion Auxiliary and never have we enjoyed such a wonderful family outing.

The menu of German food was fantastic, complete from saverkraut to German beer I understand Heidi Klein was master chef, but assisted by the -Auxiliary members during each tacet acation, and serving. My comspoon and kettle

group shuffled plates and tried

almost everything and even though strange to our children's palates they gobbled up the knockwurst and I know I yerdid myself gorgingon sauerkraut and appleasuce cake.

There were over 300 plates prepared and not one person passed our table without compliments for taste and

For the first time my young children enjoued an Om Pah band and took their. first turn at the polks and were quite indignant when it was time for them to

The ladies did a wonderful job and I hope the public response will convince them to make this an annual event so that those who missed the first won't be dollar enough to miss a good time Sinceraly

Mike Cuevas.

Priorities

Dear Mr. Cuevas: Recently the local, friendly messages published in the Sea Coast Echo have renewed my interest in reading the paper. Certainly you have pointed up conditions which affect all of us directly and you are to be commended for giving us this fine editorial service.

Of immediate interest is a solution to the condition of streets, of whether the proposed over-pass will, indeed, be a prevention of accidents or yet another hazard, and how our average citizen feels about accomplishments or lack thereof from the city's engineers.

May we have moreon these subjects?

Capture the South

Hancock Bank is making it possible for you to capture your very own piece of the South.

For a limited time you can get a beautiful set of 12 limited edition prints by famed watercolor artist Richard Lewis for only \$50. Or, you may purchase your choice of individual prints for just \$5.00 each.

These prints depict South Mississippi's most notable landmarks

and points of interest, and will make a welcome addition to your home.

As an extra bonus, the first 100 sets have been signed and numbered by the artist. So hurry, the number of sets is limited. Capture the South, with a little help from Hancock Bank. Stop by, today.

d Compretta dealt with the state government in the current session giving the farmers a talk laden with facts and statistics.

He said that at the start of his term of office in Jan. '76, the legislate faced a difficult situtation.

'The state's savings account was down to almost nothing and the high cost of living and economic slowdown had placed an almost unbearable burden on the average family.

Economic conditions have improved very little and the cost of services the state government must provide continues to rise faster than our current ability to pay for them," the state representative said.

He said that as a result the legislature has had to do more with less.

"This session of the legislature has been responsible and positive in money matters."While the trouble with tight money will likely continue for a time, I am confident the legislature will meet the needs of the people we serve.

"One of my greatest objectives is to have every agency of state government operate at maximum effectiveness but at the lowest possible cost.

"A legislative session in which the greatest problem is to make financial ends meet is not as colorful as one that enacts a lot of costly new programs." Compretta proclaimed.

He said that 2615 bills were introduced during the 1977 session, along with 359 resolutions, for a total introduction of 2974. Of this number only 761 were passed and adopted.

Compretta gave the fiscal report as being a general fund appropriation of \$763.8 million in 1978 from an availability of \$797.6 million putting the state into the black by \$29.2 million.

Major expenditures cited were: public education, \$321 million, or 42 percent; higher education, \$144.5 million, 19 percent; for a total education appropriation of \$465.6 million or 61 percent of anticipated expenditure.

Welfare and medicaid is to account for \$60 million, eight percent; local assistance and homestead exemption, \$39 million, five percent; agriculture and commerce, \$30 million, four per-

Elsie

1977 legislative session considered property tax reform legislation, this in the form of House Bill 1302, which although passing in the House, failed in the Senate

"The bill will be up again for consideration in 1978," he said. bill, as passed by the House, provided for voluntary reappraisal of real property in Mississippi.

"I believe that if there is to be reappraisal of property in the state, it would be to our advantage, if the legislature and our local officials solve the problems rather than letting the federal courts do it," Compretta con-

He said the bill provided that each county could voluntarily reappraise its property according to true value, but in arriving at true value of any land for agricultureal purposes, the appraisals should be made according to its use.

"I prefer the classification method of appraising land, urban, rural, and commercial," the state representative

He said that counties could borrow money from a special fund established for that purpose, a provision also made in the House Bill.

"Of the state's 82 counties, 10 counties have completed reappraisal, nine are under contract; 13 are considering, and the balance have not yet moved," he claimed.

Compretta said that the average assessed value for lands within the state in 1976 was, uncultivated - \$11.32; cultivated - \$24.78.

Hancock's comparative figures he gave as, uncultivated - \$10.97;

cultivated - \$14.91. He said that Hancock County's average farmland value per acre was given as \$438, ranking it 21st in the

"Section 112 of the Constitution states, "Taxation shall be uniform and equal throughout the state.

"If the legislature, state tax commission, tax assessors, of the counties, boards of supervisors, and other elected officials and the people of the state do not decide to rectify the inequities that exist in the appraisal of property across this state, then I'm afraid the courts will be called on to do it for us

You and I both know we don't want the courts forcing us to reassess our land," Compretta concluded.

Riemann, who also said that

MS. GWEN ROBERTS ACCEPTS DELIVERY OF HER NEW CHEVY VAN FROM TURAN-LANE CHEVROLET SALES REPRESENTATIVE MARY BETH IWANCZYK.

I've purchased several cars from Turan-Lane Chevrolet and always been pleased with the deals and their service manager Jackie Cameron. Since I was looking for a new Van I went back and Sales representative Mary Beth Iwanczyk made me a deal that was hard to beat elsewhere on a 1978 model. She handled everything promptly and I was able to take delivery the same day.

GWEN ROBERTS

Our Motto is: "The Only Deals We Miss Are The Ones We Don't Know About."

TURAN-LANE CHEVROLET, INC. HIGHWAY 90 WEST BAY ST. LOUIS, MISS. (A Gerry Lane Enterprise) adv.

PROCLAMATION

WHEREAS, Drug Abuse is of grave national and local oncern: and WHEREAS, Drug Addiction affects the health and safety

of the Community; and WHEREAS, Drug Abuse robs our nation and our comnunity of the potentials of our youth; and

WHEREAS, Federal, State, and Local Agencies, private and civic groups are participating in education, treatment, and rehabilitation; and

WHEREAS, The Drug Enforcement Administration, the Sheriff Department of Hancock County, the State Police and the Bay St. Louis Police Dpartmentare actively pursuing the elimination of the illegal drug traffic; and

WHEREAS, the Mississippi Alcohol & Drug, Abuse Authority offers treatment to drug abusers and addicts; WHEREAS, the Gulf Coast Mental Health Center offers confidential assistance to drug abusers; and

WHEREAS, the Committee on Drug Abuse, supported by the United Way, is working to combat and prevent drug abluse and assist individuals and families with drug problems through a program of education, information, and WHEREAS, the officials of Bay St. Louis are interested in

preventing drug abuse; reventing drug abuse; THEREFORE, I Larry J. Bennett; Mayor of the City of Bay St. Louis, do now proplaim the month of October as DRUG PREVENTION MONTH

in the City of Bay St. Louis, and urge all citizens to acquaint themselves with the programs and services provided by these agencies, to alert the public to the dangers of drug

> Given under my hand and the Seal of the City of Bay St. Louis, Miss. this the first day of October 1977.

Alumnus of Year nominations open

Alumnus of the Year Award at Pearl River Junior College will close at 3 p.m., Tuesday, Oct. 4, according to Enoch Seal. PRC Alumni secretary.

All nominations must be in writing, giving name of nominee and his or her qualifications for this honor. A committee of two graduates from each of the six supporting PRC counties will select the Alumnus of the Year at a 7 p.m. meeting, Wednesday, Oct. 5, in the Conference Room of the PRC Administration Building.

Nominations for the be presented at the committee meeting on Wednesday but a written nomination must be presented by the Tuesday deadline.

The Alumnus of the Year Award is the highest honor given to any graduate of PRC by the school. It is based on outstanding contributions to the community, church and college during the preceeding year.

Announcement of the Alumnus of the Year Award will be made at the annual Alumni Banquet preceeding the Pearl River football game Nomination speeches may on Oct. 15, Homecoming Day.

MAIN STREET IMPROVEMENT—Homeowner Mildred Figaire of 532 Main St. surveys new location of utility pole in front of her house. Movement of the poles is underway this week to accommodate sidewalks along the street, all a part of the Main Street improvement program. United Way...

who is mentally retarded, a depressed and lonely senior citizen, a teen-ager falling into the drug scene to escape life's pressures-what do they have in common?

For one thing, whether they are aware of it or not, they are all facing problems related to their mental health. And, if they are living in Hancock County, there is a second thing, They are all eligible for assistance with these problems through the services of the Gulf Coast Mental Health Center.

These are but a few examples of the type of life situations that are presented daily to staff workers in a comprehensive community mental health center. The Gulf Coast Mental Health Center is the agency with the responsibility for providing comprehensive mental health services in Hancock County, as well as in Harrison, Pearl River, and Stone.

At any one time, approximately 100 Hancock County residents are receiving direct services from the Center staff. Direct services are those directed toward alleviating a specific problem an individual or family is experiencing. It might be counseling, therapy, or evaluation on an outpatient basis, inpatient care, day treatment or partial hospitalization (if more than outpatient care but less than full hospitalization is required), aftercare following release from a state mental hospital, or in-person or telephone emergency service in time of crisis.

Direct treatment also includes specialized services for abusers of alcohol and other drugs and for the developmentally disabled.

The majority of Hancock County residents receiving direct services come to the Center's main location at 4514 Old Pass Road, across the street from Memorial Hospital, in Gulfport. where most of the Center staff is based. To assist those for whom transportation to Gulfport presents an undue hardship, an outpatient clinic is conducted each Friday at St. Augustine Seminary in Bay St. Louis.

Treatment for alcohol and drug related problems is provided by specially trained staff at the Center and at a Halfway House also located in

Gulfport. Most of Hancock County has become familiar with and supported one of the Center's three programs for the developmentally disabled during its first two years of operation-the Silver Creek School in Kiln. Under the direction of Mrs. Jane Baumgartner. Silver Creek School offers education and training to children and young adults, ages, 3 to 20, from Hancock and South Pearl River Counties. The school's enrollment capacity was increased recently from 20 to 30.

(Continued from Page 1)

The other two Center-sponsored programs in developmental disabilities (a designation which includes mental retardation, epilepsy, cerebral palsy, and autism) are a preschool and an adult activity center in Gulfport.

But comprehensive mental health services don't stop with the direct treatment of problems that already exist. They must also include efforts to prevent problems from occurring or from becoming severe enough to require professional help. To carry out the purpose of this indirect service, a portion of the Center staff's time is allocated to consultation and education

Consultation-education is provided to a variety of groups and agencies in Hancock County in a variety of ways. Other agencies involved in human services, as well as the schools, can ask for staff consultation on matters relating to either their overall program or to a specific client or student. Education is directed to the community at large, usually by providing speakers. discussion leaders and resource personnel to schools, churches, and community and civic organizations.

Schools have been the primary target for consultation-education services. Each year, three elementary schools in the four counties served by the Center are designated as bases of operation for Center staff. Lakeshore was one of the three schools selected when this program was initiated three years ago. Waveland Elementary was chosen for the second year and continues to be the site for this, the third, year.

In working with the schools, a professional worker from the Center's children and youth services staff spends three days a week in a school. All first-grade students in the school are evaluated in an attempt to identify any problems that may interfere with their academic or social adjustment. When such problems are apparent, consultation and follow-up services are offered to the teachers and parents as indicated

At the same time, the worker is available to other school personnel-not only in the headquarters school but throughout the county.

Many children identified through this program, and their parents, have been referred to the Center for evaluation and individual, group, or family therapy. Many of the children have also become enrolled in Camp Widget, the Center's therapeutic summer camp

In the summers of both 1976 and 1977, Camp Widget was conducted by Center staff, assisted by volunteer counselors trained in the behavioral sciences, on the grounds of Camp Onward in Bay St. Louis. The 36 youngsters participating this year were all between the ages of 6

and 12, and all were experiencing behavioral or adjustment difficulties. They were children already in treatment at the Center, and, following the 12-day, 24-hour-a-day camp experience, feedback was given by the camp staff to parents and the children's therapists to further their ongoing treatment.

The Gulf Coast Mental Health Center is supported in part by Federal funds through grants from the National Institute of Mental health, the National Institute on Drug Abuse, the National Institute on Alcohol Abuse and Alcoholism and grants received under Title XX through the Department of Public Welfare.

Tax millage from the Boards of Supervisors in the four counties served (currently 1.25 mills in Hancock County) provides local support. Additional assistance is received from the United Way in Hancock, Harrison, and Pearl River Counties.

Fees for services are charged on a sliding scale basis, according to the client's income and number of dependents. Regardless of their ability to pay, services are available to all citizens of Hancock, Harrison, Pearl River and Stone Counties.

Requests for services - whether for direct services or consultationeducation-are taken at the Gulf Coast Mental Health Center, 4514 Old Pass Road in Gulfport. Hancock County residents may call the Center toll-free at any time. There is an answering service and a worker on call 24 hours a

Stewart, Executive Director, the Center's staff of 70 is made up of psychiatrists, psychologists, social workers, counselors, special education teachers, and aides, in addition to

The program is under the auspices of the Mississippi Region XIII Commission for Mental Health-Mental Retardation, of which Mrs. Anita Lamb

with the labels to back up. . .rolling in daily from

about 2 a.m., Tuesday, and involved Sheriff's Deputies Delbery Seay and Ronnie Peterson.

Here two juveniles, one 16 and one 17, apparently broke into a doctor's car and stole surgical equipment, following their having reportedly previously broken into the Diamondhead Drug Store, from whence \$123 in cash was removed

Both were taken downtown, booked, and later released to their parents on a custodial promise.

A tip resulted in the arrest of the Shoreline Park juvenile, 15, male, last Friday, by Sheriff Sylvan Ladner, Jr., his Chief Deputy Ronnie Peterson, and Deputies Paul Bernard, Delbert Seay.

Here a considerable amount of "personal property" was recovered as well as a valuable man's ring. Ladner said the ring could be recovered by the owner upon receipt of

a correct description by his office. The youth, also released to his parents, was charged with breaking into two houses, two trailers, and a converted railroad caboose.

Deputies Ronnie Farrel and Leo Woods, on a routine county patrol, while passing Cuevas Junction Cafe on the intersection of Highways 603 and 43 at approximately 1.30 a.m., Tuesday, spotted two juveniles apparently in the act of burglarizing the premises.

Four cases of beverage had been removed from the cafe and were outside, two machines broken into and \$30 in cash removed.

Delay in release of the pair, one 16

and one 17, to the custody of their parents was occasioned, by ongoing investigation.

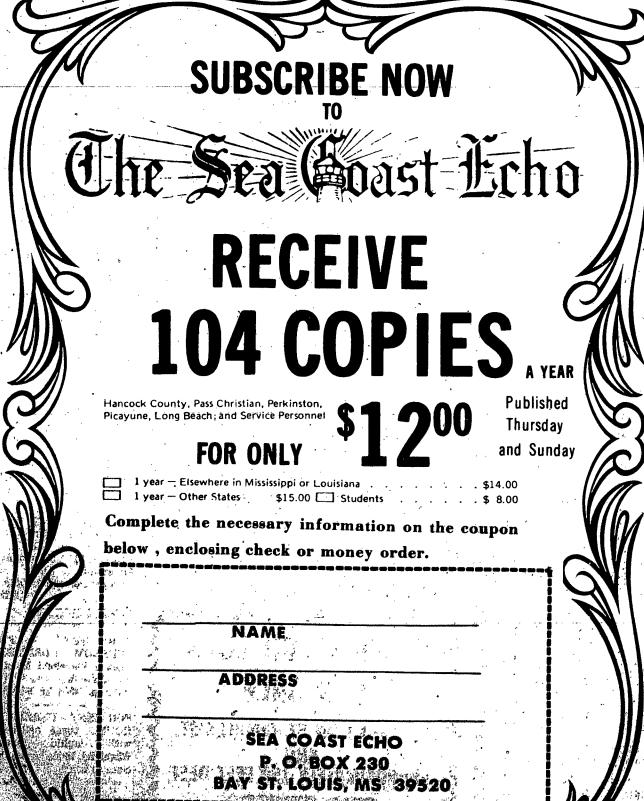

In other police matters, Marsha Hurkes, previously a patient at Hancock General Hospital following an incident at the Hancock County Fair Grounds on Friday, was charged with resisting arrest and assaulting a police officer in connection with the affair.

Released on \$500 bond, she is charged to appear before the court of Justice Judge William Frisbie on Monday, Oct. 3. Originally set for trial on Sept. 26, a continuance of one week was granted by Judge Frisbie at the request of the defendent's attorney.

All others charged in connection with the fight will also appear before the court on Oct. 3.

and the final score stood at 26- in the defensive backfield,

by RANDY LANKFORD Hancock North Central hosting St. Stanislaus! What more could a football fan ask for? Both teams have high power offenses as well as equally stingy defensive units.

When the two meet at Hancock, Friday at 7:30, it should be another of the hardfought games that fans have come to expect. Last year the St. Stanislaus Rock-a-Chaws took a narrow 13-9 win over the Hancock Hawks.

According to Hancock coach Irvin Favre, this year's game could be just as close.

"It's anybody's game. About all I can say is that it will be a real good game. Everyone better get here early if they want a seat. I expect a full house," said Favre. "They have a good football team. They have a very potent offense. I think it will all boil down to who wants the win the most. If we want it worse than they do, then we'll win. If they want it more, they'll win. It's really

gives some of your hurt players a chance to heal and get over some injuries. It also gives you a chance to work on your weak points more.

DEFENSIVE MEN EVERYWHERE- The St. Stanislaus

defense had an outstanding game against the Notre Dame

Rebels last week, taking a 20-0 shutout. Head coach Bob

"It can be bad too, in that it hurts your timing and crispness. A team needs to play or it loses that sharpness from week to week.

"All in all, I don't think the week off will make much difference in the game. We gave our players three days off last week since the fair was in the county. We practiced Monday and Tuesday of last week and didn't practice again until Monday of this week," added Favre.

As for Rock-a-Chaw practice, Poole feels all is

"We had our best practice of the year Tuesday. We had a little knock-knock scrimmage. They were hitting so hard we were afraid they would hurt each other.

"We needed to gain a little

any body's guess. aggressivness and I think we M Hancock North Central 🐔

"We're looking at it like continued Favre. "We've been struggling along for a long time trying to be the best team in the county. We'll get our shot at it Friday

night." Although the St. Stanislaus team scored a shut out last week against Notre Dame, head coach Bob Poole feels it will take a better defensive

effort this week. "We had a lot of good defensive efforts last week. But, we will definitely have to play better defense against Hancock," added Poole.

This year's game will be played in Kiln. When asked if this would make any difference in the outcome, Poole replied, "I don't think it will have much bearing on the game. They came down here last year and we beat them. I think they'll want to get even

While the Rock-a-Chaws were blanking Notre Dame 20-0 last week, Hancock North Central took the week off. Favre doesn't think the extra time to prepare helped his team very much.

did it Tuesday." While Poole is worried about some minor injuries to Todd Edwards, Randy SantaCruz and Glen Logan, Favre has a bigger problem— the potent Rock-a-Chaw offense.

"They run so many things both offensivly and defensivly, it's hard to prepare for them. They do everything so well. They are a very balanced ball club," continued the Hancock coach. "They throw well and run well. They made some mistakes in their first game of the year (a 26-26 tie against Pearl River Central) but those

have all been corrected. 'We have to do a good job on the offensive line. We have to block well against their defensive line. We hope our quarterback can do the job for us. We're going to need a good performance from him,' added Favre.

On the defensive side, Favre sees a good pass rush as a key to the game.

pressure on their quarterback. He runs the team well and can throw well. We those people. That's the way I see it. I think we can win the going to have to deal with game if we get after them," them," added Favre.

Central for the County Championship.

concluded the coach. Favre's team will need a good pass rush if they expect to stop the passing of St. Stanislaus quarterback Peter Bernheim. Poole has said that the Rocks will take to the air

changing anything. "We're going to keep on doing what we've been doing.

If they beat us, they'll have to do it against what we do best.

As for the Hancock North

Central offense, Favre isn't

County championship hangs in the balance

Poole says his team will need an even better defensive effort

this week as the Rock-a-Chaws take on Hancock North

"We hope to establish our running game and then go to our passing game to keep their defense honest. If they play the rush too hard we'll try to pass. We feel like we have to mix it up," added the Stanislaus boss.

Spearheading the running game for the Rocks will be tailback Bill Kergosien and fullback Greg Hammer. Favre feels that the two St. Stanislaus running backs will be factors in the game as well as the Rock-a-Chaw passing

quick. He's hard to tackle

"Once we got through the rain, the heat has set in. We're going to have to play in it so we've been practicing in it. We've been working hard on our offense but we aren't changing it any. We're going to stick with what works,' said the coach.

St. Stanislaus has had it's best practice of the year. The Hancock offense is ready to play. Injuries are few and far between on both teams.

Favre may have been more prophetic than he thought "Kergosien is small but he's when he called the game a

recovered a Hinds fumble at the Eagle 22.

"I don't know how demoralizing that first min te

streak with a 26-0 shellacing of the Hinds Eagles.

"It was a good effort; we showed we wanted to hit and hustle," the head coach mentioned. The Wildcats stunned the Eagles early with James Smith returning the opening kickoff 90 yards for a touchdown. Seconds later Bill

confessed, "but I still think we were ready enough to win." The Wildcats cameup with

seven interceptions and four fumbles and that spelled doom to Hinds chances. We had to be moving and reacting quick to get that many interceptions," Arban said, "we had to be getting pressure on the quarterback."

OLA, Ocean Springs tie in volleyball

The OLA volleyball team opened it's season Tuesday with the high school playing Ocean Springs and the Jr. high facing St. Clare's.

The high school 'B' team fell before Ocean Springs in two straight games, 4-15 and 0-15. The 'A' team won two games and lost one, 15-11, 6-15, 15-11 to win the match and even the record between the two

schools at 1-1. Suzi Kergosien turned in a good performance for the 'A' team and was cited spiking show against Ocean Springs;

In the junior high game, OLA won two straight matches with scores of 15-10, 11-15 and 15-9 in the first match. In the second match of the day OLA won in straight games, 15-8 and 15-10. Kim Furman was the top performer for the OLA team in the junior high game reeling off 12 straight points to pace the first win of the night.

OLA's next game will be tonight at 7 p.m. in the OLA by coach Susan Ferry for her gym against Biloxi.

GOLDEN WEDDING Mr. and Mrs. George McArthur appreciate the gifts and kindnesses given them when over 100 friends and family gathered to celebrate their Golden Wedding Anniversary.

Out of town guest included " Qutman Williams and family, Jackson; Georgette Gills. Victoria Carco, Julia Tristitch of Gulfport; Deloris and Irma Bourgeois, James Bossarge, Henery Bossarge, Patsy Garcia, Lakeshore; Lester Lafrance family, Bay St. Louis; Ethel Lambart, Marge Lambart, Slidell; Bill and Charles Little of Picayune: Rev. Walt Porter, Methodist pastor.

The couple renewed marriage vows in a ceremony performed by Rev. J.L. Rasbasberry, pastor, First Southern Baptist Church.

The wedding cake was made by their neice, Georgette

Mr. and Mrs. George McArthur were married 50 years ago and have lived here in Pearlington for all 50 years. They are parents of five children, Earstine Turner, Abbie Williams, George Bud

14 grandchildren and one great-grandchild. We wish for them many more years of happiness.

NOTES Happy Birthday greetings to Paul Carver, Cathy Carver, Gary Jo Wyman, Anna Mae Wyman, Valarie Young, Jeff McGuire, Daniel Frickie, Gail Griffin, Bill Griffin, DeJuan Griffin, Mike Frickie, May

Mrs. Anna May Wyman of Nicholson, was a visitor to Mary Wyman for a week, and Mrs. Lois Wyman was visiting Mary Wyman and Mrs. Pearl Hover, over the same period.

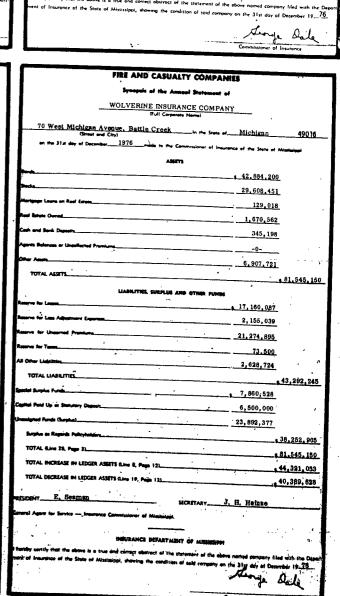

We are glad Mrs. Lona Smith was able to leave the rest home in Picayune for a visit to her family.

Rev. Walt Porter, pastor of Pearlington and Clermont Harbor United Methodist Churches, has been transferred to McLarin Methodist Church, McLarin. He has been replaced by Rev. Karl Wilcox of Clermont Harbor who, with his wife Sharon, will live in Pearlington Methodist Parsonage.

WHEN DO WE EAT? asks Joey Breaux, 2, of White Cypress as he surveys what may be the world's largest gumbo pot. More than 1,000 gallons of gumbo will be prepared for the third annual Gumbo Festival, Friday, Saturday and Sunday, at festival grounds, Highway 603 between White Cypress and Necaise Crossing. Good food, and pleaty good times are promised by festival officials. Gates open 5 p.m., Friday, with ample space for campers being available. Melvin Ladner, right, festival entertainment chairman, has scheduled an array of country music stars for appearance at the three day event.

For more information on

recreation program contact Ms. 39576.

Mississippi Park Commission has recently this program or the overall P.O. Drawer 180, Waveland, recreation program to be conducted year round at Buccaneer State Park in Waveland. Each weekend nature activities, sport tournaments, games, movies or special events are planned for campers as well as local residents. Although some "activities may require a deposit on equipment, there is no user charge, and the deposit is refunded upon the return of undamaged equipment. Recreational facilities at Buccaneer include: a lighted area with tennis courts, shuffleboard court, playground, and a basketball court; a volleyball court; horseshoe court; two self-guiding nature trails; two playgrounds; and a recreation hall. The recreation hall, which will be cepned on weekends and from 3:00 - 7:00 p.m. on Mondays and Tuesdays, houses two pingpong tables, juke box, table

games, and pinball machines. Although all activities are planned and executed with the goal of enjoyment, prizes are sometimes awarded. Some type of special recognition is given to all winners. This weekend's activities include a table tennis tournament for those 16 years and older; a shuffleboard contest for ages 11 - 15; a story hour; a lesson in orienteering; and a horseshoe contest for ages 12 and

Another program which is just beginning at Buccaneer is the Mississippi State Parks Junior Ranger Program. Under this program a membrship card can be issued to anyone between the ages of 7-15. There are three successive phases to this program: the junior park ranger; the advanced junior park ranger; and the expert junior park ranger. Under each phase the individual completes four requirements, all dealing with the natural environment, and conservation or park work. Upon completion of these requirements, a Junior Ranger arm patch and a certificate are awarded to the individual.

All activities are conducted on a one - to - one basis, each participant working directly with a member of the park's administration. There is no time limit on the completion of projects. Many of these projects could double as school assignments in Science, Natural History, or English.

UNIVERSITY - Results of survey on career education deeds in the state were recently published in Research in Education publication of the Ole Miss. Enreau of Educations! Research More than 3,000 students, faculty members and administrators in elementary and secondary public schools, two univer-natios, me junior college and three state adiools provided information for the survey

Vampire to fly at Bay Little Theatre Several months ago there original novel, by Bram Stron) contribute to this

was a most interesting novel Stoker. on the best seller list, "In-. terview With a Vampire", and notions the public has come to harbor as a result of Hollywood hokum about what is known about vampire's or the "undead".

Whether you believe in vampire's or not, you must admit that it's a most interesting subject.

it disposed of lots of funny is a most dramatic novel, but 'the tortured not only of his

subject in the dramatic vein that was intended.

daughter Lucy (Debbie Seward's home. Shafer) are Abraham Van The Bay St. Louis Little Helsing (Ed Craig) and John by Ted Stechmann, with John Theatre will take you back to Harker (Skip Wasnack). The Holmes as technical director, basics when it presents the Cockney attendant But- will be presented October 6, 7 Roger Scharp production of terworth (Loren Hover) and & 8 at the playhouse on

search and are even aided by The silver screen has the sometimes lucid Renfield managed to make fun of what (Jay Heitzmann) who suffers bless theatre to present this unbalanced mind, but those of "the master."

Count Dracula, who has In pursuit of a menace to the come to reside at an adjoining calm of an English asylum estate is the pivotal character operated by Dr. Seward of the search for the return of (Walter Vaughn) and his peace and tranquility to Dr.

"Dracula", being directed

READY FOR MAIL - Deputies Cynthia Smith, left, Cynthia Ladner and Shelia Farve, thumb through the tax statements for 1978 auto and truck decal mailing from the Hancock County Tax Collector's office. George Heitzmann, county tax collector-assessor said that 10,983 statements were ready to be mailed for Oct. 1st delivery. This year's auto owners will receive a decal to place on their old auto and truck tags upon payment of taxes. Heitzmann also stated that vehicle owners having other than October registration, will receive a tax statement prior to the month that their licenses becomes due. (Echo photo - Ellis Cuevas)

IS THE SECOND COMING OF CHRIST IMMINENT? Many students of prophecy think so! It is the conviction of many Bible scholars that most, if indeed not all, Bible prophecies pointing to the in said cause should not be adjudged second coming of our Lord in a delinquent child and for such other the clouds, the rapture of the relief as to the court may seem proper saints and the great tribulation on earth have been fulfilled. On this subject, Jesus used

two analogies in answer to inquiries about the time and signs of His second coming. In the Gospels of Matthew and Luke He compared the conditions at the end of this age with conditions in the 'days of Noah" (Gen. 6:1-13), and the "days of Lot" (Gen. chapters 13, 18, and 19), when the "wickedness of man was every imagination of the thoughts of his heart was only were destroyed because of the 1977. festering immoral degenercy

indulgencies. The recent demonstrations and demands of homosexuals to be granted the right to teach our children, and be accepted as moral and social equals in a Judeo-Christian society is the last straw and points to the end of the age and the wrath of 1, Box 234, Pearl River, Louisiana God upon such moral filth.

of homosexualism with its

low, lustful and licentious

The Biblical account of the fiery destruction of Sodom and Gomorrah leaves no question as to what God thinks of the homosexuals, lesbians and their kind.Should there remain any question with the reader; read what God has to (SEAL) say in His Word about such base and ignoble persons who would, if left to impose their evil desires would corrupt all mankind.

God loves the soul of the homosexual as well as He does anyone else; but He despises their sins. When they speak of "Gay liberation," they should, in contrite repentance, be praying for the liberation of their souls from their sins. Like fornicators, idolatordrunkards, revilers, practices against God and man, these "effeminite" and "abusers of themselves with mankind", spoken of in Genesis 18:20-21; 19:1-13; Romans 1:24-27; I Corinthians 6:9-11; IITim. 3:3 and other passages, should repent of their sins and humbly trust in the Lord Jesus Christ for salvation. They can be saved! God speaks of their sins as being "very grevious." Like all people, they have some "rights;" but no one has a "right" to corrupt and destroy
